

Once upon a time there lived an outspoken fashion editor named Kat, who certainly was not your typical damsel in distress. But when a gypsy curse sent her back in time to the days of King Arthur, she found shed need every ounce of her 21st century wits (and pop culture references) to navigate the legend. After all, surviving a magical plot, an evil prince, and a case of mistaken identity--all without changing history or scuffing your Manolos--takes some doing! Luckily, shes got her very own knight in shining armor, Lancelot du Lac, on her side. The honorable-to-a-fault and devastatingly handsome champion insists on helping her out, even though shes not quite sure she wants him to. After all, shouldnt he be off romancing Queen Guenevere or something? Will Kat manage to stay out of trouble long enough to get back to her beloved cafe lattes, cosmopolitans and cashmere? And what will Lancelots forbidden love mean for the kingdom of Camelot?
