

ExamGear familiarizes certification candidates with the difficulty, style and mechanics of the actual exams. It refines and organizes their knowledge to increase their chances of passing the exam. Not just a testing engine, ExamGear is comprised of three key components: Exam Simulation, Exclusive DirectHelp Mentored Learning, and Study Tools. These features differentiate it from anything else on the market, including New Riders own Complete. While Complete is an integrated training solution based on written content, ExamGear focuses on exam preparation with quality scenario-based questions and adaptive testing-just like the real exams.
