

Cone Beam CT of the Head and Neck presents normal anatomy of the head using photographs of cadavers and CBCT images in sagittal, axial and coronal planes with the anatomic structures and landmarks clearly labelled. Important structures and regions are presented in detailed view. The photographs of human tissue (based on slicing of cadaveric heads) combined with CBCT images have not been used previously for an atlas of anatomy. Scanned objects with the possibility of 3D reconstruction present better understanding of the anatomy.

Beware the Fury, Claiming an Education: Feminism and Canadian Schools (Our Schools), Yellow Dog Blues (The Club Book 5), This Is How You Die: Stories of the Inscrutable, Infallible, Inescapable Machine of Death, The Daemon (Celestial Book 4), Grand Street 54: Space (Fall 1995), Homeric Hymns (Hackett Classics), How to Fly for Free (A More for Your Money Guide), Geoducks Are for Lovers (Modern Love Stories Book 1),
