

For single mother Sam Martin, her life as far as she knows it, is broken - broken by a painful past she can't let go of and a best friend gone too soon. But when she meets Erik Maystrom, a community clinic doctor who accepts her just the way she is - scars, juvie records and even the constant self-doubt - she knows that accepting his love is not going to be enough to live the life she deserves. For to move on with her life, she needs to let go of the mistakes of her past. But is moving on really that easy when her ex-husband and his ex-girlfriend aren't exactly ready to let them both go, and her past has come back when she least expects it?
