

The New York Times bestseller: You gotta read this. It is the most exciting book about Pluto you will ever read in your life. —Jon Stewart
When the Rose Center for Earth and Space at the American Museum of Natural History reclassified Pluto as an icy comet, the New York Times proclaimed on page one, Pluto Not a Planet? Only in New York. Immediately, the public, professionals, and press were choosing sides over Plutos planethood. Pluto is entrenched in our cultural and emotional view of the cosmos, and Neil deGrasse Tyson, award-winning author and director of the Rose Center, is on a quest to discover why. He stood at the heart of the controversy over Plutos demotion, and consequently Plutophiles have freely shared their opinions with him, including endless hate mail from third-graders. With his inimitable wit, Tyson delivers a minihistory of planets, describes the oversized characters of the people who study them, and recounts how Americas favorite planet was ousted from the cosmic hub.

Brain Disabling Treatments in Psychiatry: Drugs, Electroshock, and the Psychopharmaceutical Complex, Gun Education and Safety, Hummingbird Tales: The Beginning, Mountains, Madness, & Miracles: 4,000 Miles Along the Appalachian Trail, Class and Health: Research and Longitudinal Data, Tease: Volume 1, Making Food Choices (Ethics of Food), Benita: An African romance, Fractured (The ARC Book 3),
