

The Secret, by Rhonda Byrne, has become an international best seller, endorsed by Oprah Winfrey and embraced by millions. She admittedly drew her inspiration from a little-known book written in 1910, The Science of Getting Rich, by William Wattles. Wattles was a success guru in his time, and he is coming back into his own. His ideas and philosophies have the potential of changing your life, of truly helping you become rich--not only financially, but in all the ways that make life worth living. You can go to the same source Rhonda Byrne went to and learn, as she did, from the master. Wattles wrote: The ownership of money and property comes as a result of doing things in a certain way. Those who do things in this certain way, whether on purpose or accidentally, get rich. Those who do not do things in this certain way, no matter how hard they work or how able they are, remain poor. It is a natural law that like causes always produce like effects. Therefore, any man or woman who learns to do things in this certain way will infallibly get rich.
