

Charles Thomas Cayce, eldest grandchild of Edgar Cayce, and Jeanette Thomas, administrator of the A.R.E. records and archives, have brought together a definitive collection of letters from and to Edgar Cayce that illuminate the man and his God-given talents as a psychic diagnostician. This unique and compelling collection provides a firsthand look at Edgar Cayce's efforts to use his gift in service to others; his struggles with financial hardships and sometimes-public humiliation; and his efforts to reconcile the information that came through him on topics such as reincarnation, Atlantis, and astrology with his devoutly Christian beliefs. Cayce's letters show, as no other documents can, how his psychic gift drove him, against all odds and many setbacks, towards his dream for the Work -- the development of the Association for Research and Enlightenment, which has preserved his work and made it accessible to all.
